Total Solution Total Protection

AN ISO CERTIFIED COMPANY

BIOCIDE for Closed Loop chilled water

Part/Order no:	Packing
RXSOL-40-4008-25	25 Ltr
RXSOL-40-4008-210	210 Ltr

Note:

Form - Liquid
Colour - Clear Colourless
Odour - Strong Pungent
pH (1% solution) - 1.0-2.0

Product Description:

Very effective controller of BACTERIA and corrosion from closed loop chilled water system.

It is a environmentally safe and versatile anti microbial and a powerful anti oxidant, When it dissolved in water, it disintegrates to water, oxygen and carbon dioxide. All these degradation products are non toxic. It is a very powerful oxidant, whose oxidation potential outranges that of chlorine and chlorine oxides.

Application:

marine / Industrial circulating cooling water for both open and closed loops (including food contact)

Milk & Dairy products processing and packaging plants.

Wineries, vineyards and breweris plant Meat, Seafood, poultry and vegetable processing plants Cleaning, sanitising and disinfections of UF & RO membranes Waste water treatment (odour control agent, disinfectant and cleaner).
