RXSOL-20-3001-210	210 Ltr

Product Description:

It is a bio-degradable cleaning and degreasing products. Suitable to use with PRESSURE washing equipment and safe to the person handling it. Pleasant citrus odour.

Application:

A versatile cleaner which can be used for Tank or general cleaning.

MANUAL DEGREASING : May be applied neat or diluted with water up to 1 part to 15 – 20 parts by using a cloth ,brush or spray. After use as an engine room cleaner, bilge slops must be allowed to separate for at least 3 hrs before passing through an oily water separator.

Tank & BILGE CLEANING : RXSOL-20-3001-ECS is recommended for any of the standard tank cleaning methods including ship motion,pressure spray washing and recirculation method after mineral, animal, fish and vegetable oils.

Dose:

Application-METHOD:- (Dose Rate)

- **BY WASHING MACHINE :** For direct injection into tank This will require a solution strength between 0.03 and 1.5%, (0.3-15 lts per thousand lts of wash water)

- **BY RECIRCULATION METHOD :** Working strength should be 0.05 and 1% (0.5 –10 Ltres per ton wash water) by weight in fresh water , based on capacity of the equipment . This solution can be re-used until no longer effective.

- **Spot cleaning:** RXSOL-20-3001-ECS can be hand sprayed neat or diluted up to 5 parts water and allow 15 to 20 minutes contact time to penetrate deposits . Finally wash off with water jet . The best results will be obtained when wash water is heated to 40-60°C .

Note:

Excellent for use with pressure - washing equipment and for industrial application. It is suitable for stainless steel tanks having, epoxy / phenolic linings

Environmentally safe .

Highly effective Water-based degreaser.

Ingredients are all biodegradable.

Non-flammable , Pleasant citrus odour.

Highly cost effective concentrated cleaner Very economical dilution rate, 1 to 15 parts of water.
