Lac Alka Liquid HD

Part/Order no:	Packing
RXSOL-20-2015-25	25 Ltr
RXSOL-20-2015-210	210 Ltr

Product Description:

Well balanced alkaline cleaner. It is free hydrocarbon solvents. Gentle & suitable for tank cleaning operation. A very strong alkaline cleaner, which can be used to soften up/ remove baked on drying oils and also used after animal and vegetable oils, fish oils, tall oils, tung oil etc. It is low toxic product with an exceptional solvency power on soil & oily matter. It is free from Hydrocarbon solvents, Biodegradable and minimizes the extreme hazards to personnel in handling materials.

Application:

It can be used as a general purpose cleaner to remove oil and grease deposits. First of all flush the system with cold water to prevent evaporation rates and polymerization then the most economical method of using RXSOL-20-2015-210 is by direct injection followed by recirculation washing, using tank cleaning machines.

Spraying method:

Using LAC as delivered in drums, spray onto areas where residue remains following rough washing leave for 10-45 minutes (but do not allow to dry), then butterfly at maximum pressure and warm water 60°C for at least 3 hours, checking that there is no foam remaining in the final stages. Inspects tanks(s) and if desired result has been achieved fresh water rinse and dry.

Injection Method:

Not applicable.

Dose:

Refer to technical datasheet.

Re-circulation Method:

Fill tank with fresh water and heat up to warm 50 °C. If a drop line is available on the tank line system, then start to circulate the water and add the required amount of Caustic flakes and LAC to make a 2.5% solution. A stronger solution can be made, but be advised that too much Caustic and too high temperature will result in white powder all over the tank. Under normal circumstances, between 2.5% and 4.5% will be sufficient strength. If there is no drop line, then lower butterfly hoses into the tank from the pump stack header without machines attached and circulate through these hoses while you fill the solution material.

Technical Specifications:

Removes grease, oil, carbon deposits, soil and grime.

Keeps loosened deposits in suspension preventing redeposition.

Low toxic, Non-flammable.

Free from hydrocarbon solvents.

Effective and economical in use, Water-based Cleaner.

RXSOL-20-2015-210 has numerous cleaning applications including removal of greases, waxes.

Oil, sludge, soot, carbon deposits and general dirt and grime.

Non-corrosive to ferrous metals. Suitable for all tank coatings.

Can be used for gas and hydrocarbon freeing of Tanks.

Can be used for deodorizing.

Contains wetting agents.
