Total Solution Total Protection

AN ISO CERTIFIED COMPANY

Muriatic Acid

Part/Order no: Packing

RXSOL-22-2205-210 210 Ltr

RXSOL-22-2205-025 25 Ltr

Product Description:

RXSOL-22-2205 R & D Chemical Company developed this molecular cement dissolver, Lime cleaner and general as an alternative to using hazardous acids for concrete removal. Back-Set is a one-of-a-kind formula. It uses an active ingredient found in sugar cane syrup, and is completely biodegradable. It is a liquid blend of organic compounds, scale and corrosion inhibitors, oxygen scavengers and sludge conditioners with valuable surfactants. It is a highly soluble, product used for the reduction of hardness of cement. It will precipitate calcium hardness as a non-adherent sludge. Colourless liquid sludge conditioner designed to prevent deposits.

Dosing Methods & Using Procedure:

The hardened concrete is saturated with Back-Set, either with a brush or by spraying. After 15-20 minutes, the area is again saturated with the chemical. The concrete typically begins to soften in 20-30 minutes, and can be rinsed off with water. The amount required for dosage can be obtained by knowing the deposition composition as well as nature of cement to be removed. 5 to 20 % recommended. These are recommended values based on experience. For optimum results dose RXSOL-22-2205 directly to the surface.

Product Properties:

Appearance	Yellowish
Density	In g/ml at 15°C: 1.1
Compatibility	
Metal	Avoid aluminium, zinc galvanised Steel.
Rubber	No known effect

Features, Benefits and Applications:

- Dispersant action suspends cement sludge and sediment particles for efficient blowdown.
- Highly active phosphate based compound, economical in use.
- Easily dissolved in water for dosing.
- Scale problems due to calcium are eliminated.
- Maintains sludge in a non-adherent state for ease of blowdown.
- Simple test to determine level of treatment.
- Can be used for all pressures.
- Liquid product, easy to feed.
- Keeps sludge dispersed for efficient removal by blowdown.

Characteristic:

- Biodegradable.
- Non-fuming.
- Safe for paint, chrome, aluminum, glass, rubber, plastic, brass & stainless.
- Dissolves cured cement, concrete, mortar, grout, stucco. Cleans aluminum.
- Also comes with a foaming spray Nozzle.

Note:

will not remove rubberized cement. Additional Information. This product is formulated for use in conjunction with sea water / Good water.
