Prism Foaming Rainbow Wax

Part/Order no: RXSOL-41-4105-10
Packing: 10 Ltr

AUTO WASH RINSE AIDS:

This foaming concentrated wax is used before the final rinse cycle of automatic car washes. This product will produce a rich colored foam wax when used through a foam generating rinse arch. Prism is non-staining and may be used on any color automobile. Prism contains high foaming surfactants and finish protectors. Prism makes water run off the finish for faster spot-free drying, and helps to resist further soiling to keep the paint and chrome finish looking better, longer. This highly concentrated product gives the gloss appearance the customer desires in a convenient economical form. Prism contains a bubblegum fragrance when applied to auto finish leaves a nice fragrance in the wash tunnel.

Directions: Dilute Prism with 10 - 30 parts soft water. Run this diluted solution into the air generating arch that applies the rinse and wax additive.

Be sure to apply to a clean surface to allow the protective coating to adhere to the automotive surface.

Caution: Do not ingest, If this does occur, induce vomiting.

Contact physician immediately.

For eye or skin contact flush area with clear water for 2 minutes. Keep container sealed when not in use.
