WASH SOAPS HIGH FOAMING:

SUPER CONCENTRATE WAS DEVELOPED TO REDUCE STORAGE SPACE AND REDUCE FREIGHT COSTS.

Super concentrate may be diluted into a 55 gallon drum and then diluted again at 400 - 500 to 1 part concentrate from the 55 gallon drum. This product may be use for auto pre-spray, foaming brush application and also regular auto wash applications. Super concentrate is pH balanced so it will not harm any auto finish. Super concentrate has a special dispersing agent so that it mixes easily with hard or soft water. This concentrate is a unbelievable cleaner and is free rinsing. This detail car soap will last for a long time it is so concentrated.

Application:

SUPER CONCENTRATE was formulated with special surfactants that are mild to human skin yet cut through grease and dirt very effectively. This auto wash soap contains water chelating agents to rinse freely after being used. Keep dirt, salt and other weathering agents off your auto finish to keep it looking new for years. This super concentrate car wash soap is very economical, pennies per gallon to use. This concentrated Car wash soap will out last 2 to 3 - 55 gallon drums of many other wash soaps. This cleaner available in a super cherry car wash soap.
