Application:

WARNING:

Harmful or fatal if swallowed. May irritate eyes. Keep away from high heat. External- Flush with water. Internal- Call Physician immediately. If splashed in eyes, flush eyes and under eyelids with plenty of cool water.

WINDSHIELD WASHING SOLUTIONS:

This special product contains a special spreading agent, detergents, and penetrating agents to clean windshields after being diluted with water. Deep BlueSuper Concentrate is a real money saver when diluted with water for non-freezing conditions. This windshield cleaner will penetrate and clean bugs, dirt, and grime. This product is made to be diluted 1 gallon to 200- 250 gallons of water.

This product may be used for a glass cleaner when diluted 1 to 250 parts water.

Application:

When diluted with water for summer use this windshield cleaner will cost pennies per gallon. Great for cleaning bugs and road grime off automotive windshields. Works well in fuel island windshield cleaners also.
