

Burettes

Product code :- Rxsol-61-2867

Burettes:

A burette (also buret) is a vertical cylindrical piece of laboratory glassware with a volumetric graduation on its full length and a precision tap or stopcock, on the bottom. It is used to dispense known amounts of a liquid reagent in experiments for which such precision is necessary, such as a titration experiment. Our RXSOL Burettes are extremely accurate & made as per international standards.
