Pycnometers

Product code :- Rxsol-61-2869

Pycnometers

The pycnometer (from the greek puknos, meaning "density" also called pyknometer or specific gravity bottle), is a flask with a close-itting ground glass stopper with a fine hole through it, so that a given volume can be accurately obtained. This enables the density of a fluid to be measured accurately, by reference to an appropriate working fluid such as water or mercury, using an analytical balance.

PYCNOMETERS TO GAY-LUSSAC, CALIBRATED BOROSILICATE GLASS (WATING TIME 15 SECONDS)
